

January 25th, 2019**Life cycle notification #40****Combined notification: Transfer to Mature and Last Time Buy for MRD-305, MRD-315 and MRD-355**

Part number	Sales part description	Last order	Last shipment	Replacement part number	Replacement part description
3623-0030	MRD-305-DIN	2019-06-30	2019-12-31	3623-0501	MRD-405
3623-0050	MRD-315	2019-06-30	2019-12-31	To be confirmed	To be confirmed
3623-0250	MRD-355	2019-06-30	2019-12-31	3623-0401	MRD-455

Due to component shortage and the availability of form-fit-function replacement products, the MRD-305, MRD-315 and MRD-355 will be moved to the life cycle phase Limited at the Last order date. This change is in line with the technical development in the cellular field, where operators are shifting focus away from 3G towards 4G/LTE.

For MRD-305 and MRD-355 there are available form-fit-function alternatives with MRD-405 and MRD-455. The MRD-4xx is backward compatible with MRD-3xx and supports the most frequently used cellular frequency bands for GPRS / EDGE / 3G / HSPA. See datasheets for details.

For MRD-315 there is ongoing development of a form-fit-function alternative with planned release prior to last order date.

A finite number of products will be available for delivery. If the available products are depleted prior to Last Order Date, the corresponding replacement product will be offered as alternative.

The transfer takes place in two steps. At the date of the document the products are transferred to the phase Mature. The transfer to Limited takes place at the Last Order Date.

For a description of the Westermo Life Cycle Policy and the different phases, please see: <https://www.westermo.com/support/product-life-cycle>
