Summary

This announcement is caused by a LTB on components used in DDW-220, DDW-222, ED200 and ED210.

The replacement products DDW-142, DDW-242, DDW-225 or DDW-226 for DDW-220 and DDW-222 have the same or better functionality.

Dependent on applications, there are different options of replacement for ED-200 and ED-210, the following products may be used: MRD-315, MRD-355, MRD-455, Falcon or Lynx DSS.

Information about the WeOS based replacement products can be found on the company website at:

<http://www.westermo.com>

Recommendations and assistance

Westermo recommends all customers to transition to the replacement products as soon as possible. Customers wishing to extend the life of a platform that has integrated the DDW-220, DDW-222, ED-200 or ED210 products can purchase sufficient quantities before the last time buy date to support the projected life of the platform.
